It is my pleasure to introduce the *2000 edition* of the Department of State, Division of Library and Information Services, *Florida Library Directory with Statistics*. This publication provides critical information about Florida's statewide library system in an easy to understand format.

We are now in the information age and we find the role of the public library has changed dramatically. As we strive to provide cutting-edge technology and continue to provide our communities with quality information, the ability to demonstrate accountability and justify funding requests is more important than ever. The statistical information included in this publication is a tool to assist you in securing funding of local, state and federal grant programs.

Each public library in Florida submits a statistical report to the State Library that provides information concerning budgets, collections, and services. The Research Office in the Bureau of Library Development compiles and analyzes this data. This information is submitted to the Federal-State Cooperative System for Public Library Data, a program of the National Center for Education Statistics.

Thanks to your timely and accurate submission of data, the National Center for Education Statistics has awarded the State Library of Florida the Keppel Award, which recognizes excellence in completeness, promptness, and high quality of the local public library data that they collect, edit and submit annually. You have truly contributed to producing a quality product.

A handwritten signature in black ink that reads "Katherine Harris".
